## NEVADA'S FY 2007-2008 STATE PLAN FOR ELECTION REFORM

The President signed the Help America Vote Act of 2002 (HAVA) into law October 29, 2002, requiring the 50 States to reform state and local election procedures in order to improve and preserve the integrity of the United States voting process. HAVA affects virtually every element of the voting process, and federal funds have been made available to assist states in this task.

Federally mandated changes include, but are not limited to:

- Implementation of a Statewide Voter Registration System
- Upgrading Voting Machines throughout the State
- Improving Voter Education and Poll Worker Training
- Requiring Provisional Ballots
- Requiring voting accessibility for people with disabilities

HAVA requires each State to form a State Plan describing how the State will implement HAVA and use federal money to carry out HAVA's requirements. The Plan is developed by the Secretary of State's office and the HAVA Advisory Committee, which is made up of election officials and various members of the community. The Committee developed an initial Plan for FY 2003-2004 and finalized it after receiving public comment.

Each State must update its Plan every fiscal year and report on the State's progress toward implementation of HAVA, and the framework for continuing its activities to meet the requirements of HAVA. The HAVA Advisory Committee approved this preliminary version of the FY 2007-2008 State Plan on October 8, 2007. The Secretary of State and the HAVA Advisory Committee are now soliciting comments from the public before finalization of Nevada's FY 2007-2008 State Plan, as required by HAVA.

Accordingly, Nevada's 2007-2008 State Plan for election reform is open to public comment for a thirty day period ending November 21, 2007. **If you are interested in voicing your comments and opinions on the draft of Nevada's State Plan, please submit them in writing to be received by the Secretary of State on or before close of business on November 21, 2007.** Please address your comments to one of the following:
